Panjab University | 2019-2022
Bachelor of computer application

PROJECTS

Face Authentication Attendance System

<https://attendanceauth.vercel.app>

- Built a full-stack Face attendance application system using React (TypeScript), Django, and MongoDB
- Developed a fallback Email OTP authentication system using SendGrid for secure attendance verification.
- Created employee dashboard, leave management, notifications, profile management, attendance reports, and role-based access control.
- Designed responsive UI using Tailwind CSS.
- Integrated REST APIs between React frontend and Django backend.
- Deployed application frontend on Vercel and backend on Render

HireHub - Mern Stack

hire-hub-blush.vercel.app

- Built a MERN Stack application with real-time chat using Socket.io
- Implemented JWT authentication and REST APIs
- Added features like job posting, messaging, notifications
- Designed responsive UI using React
- Deployed on Vercel (frontend) and Render (backend)

Saajan Jewellers

<https://saajan-jewellers.vercel.app>

- Developed responsive website using HTML, CSS, JavaScript
- Created product categories and UI features
